Heiti verkefnis *	3rd International Westfjords Piano Festival
Lýsing verkefnis eða viðburðar *	<p>The 3rd International Westfjords Piano Festival aims to continue providing world-class pianists in recitals throughout the region in August. In addition to these concerts, as in our second edition, we are committed to providing free workshops and masterclasses to the students in Vesturbyggd and the wider Westfjords area, culminating in a joint student - artist faculty concert.</p> <p>A small change to our third festival is a slightly more condensed concert schedule, which would allow other residents of Iceland in other regions to attend.</p> <p>Our third season aims to invite Antoinette Perry (USC Thornton School of Music) and Audrey Axinn (Juilliard School). In addition, we seek funding to offer talented young artists from Iceland to give a split recital.</p>
Samfélagslegt gildi verkefnis eða viðburðar *	<p>The International Westfjords Piano Festival contributes greatly to a thriving cultural and artistic life in the region. In addition to general cultural contribution, there is a dedication to inspiring the future generation of Icelandic musicians, with free tickets for all music students to these world-class concerts in addition to free masterclass opportunities for all intermediate – advanced piano students. This project also contributes to multiculturalism in the area. Our festival provides not only a musical but a cultural exchange, by having artists and participants from all walks of life and places (last year we had students for example ranging from Venezuela, to Singapore, to the local area).</p>
